To Our Valued Customers,

We want to start with a "Thank You" for your continued business over the past 45 years. Our portable potti business has grown tremendously, thanks to you. It is with heavy hearts that we have decided to downsize our operations and focus exclusively on the installation of septic tanks and drain fields. We anticipate discontinuing our porta potti operations in the next few weeks. We feel these changes are necessary to best take care of our loyal customers. This decision has not come easily, but with the passing of our co-founder, Betty Dampier, Wilbur (my dad) and I realize now is the time to enjoy the time we have left in our lives to relax and enjoy a little more fun, without so much stress. We're not leaving, just hoping to sneak out early from time to time and take a vacation soon. We will keep the same phone numbers we have had for the past 47 years, and **continue to install septic tanks and drain fields**, from our office on NW 23rd Way.

We know our services to you are important and have determined that PortaServe, a company with roots over 22 years old in north central Florida will be able to best meet the needs of our customers. We will be providing them your information and they will begin servicing your sites, most likely during the month of April. I feel very comfortable that they will take good care of you.

Please do not hesitate to contact us or stop by for a visit as you have in the past.

Sincerely,

Wilbur Dampier, President

Brenda Dampier, Vice-President
